### Investment Objective and Strategy

The investment objective of the Fund is to provide long-term capital appreciation by primarily investing in listed equities with a China focus. There can be no assurance that the Fund will achieve its investment objective.

The Fund seeks to achieve its objective primarily through exposure to companies established in China or those which, whilst established outside China, derive a significant proportion of their revenue or profits from business related to China. The Fund makes investments into companies that, in the Manager's opinion, have been undervalued by the market. There is no restriction on market capitalizations or industries in relation to the equity securities in which the Fund may invest.

The Fund primarily invests in stocks listed in Hong Kong, Shanghai and/or Shenzhen. Generally, the asset allocation strategy is that at least 70% of the Fund's non cash assets will be invested in stocks listed in Hong Kong of companies established in China or those which, whilst established outside China, derive a significant proportion of their revenue or profits from business related to China, and 0% to 20% of the Fund's non cash assets will be invested in stocks listed in Shanghai and/or Shenzhen (including stocks in the ChiNext market and/or stocks listed on the Small and Medium Enterprise Board ("SME Board")).

### Fund Manager's Comment

May marked a turning point for global markets. Hopes of a trade resolution between China and the US dimmed, as the US raised tariffs on Chinese imports ahead of final stage negotiations and blacklisted Huawei from acquiring components and technology from US firms. A potential Trump-Xi meeting at the G20 will be closely watched, but expectations are low given hardened rhetoric from both sides and tensions expanding beyond trade.

Risks have increased in the real economy. Macroeconomic releases so far in the second quarter point to slower industrial production growth in China and weaker than expected employment in the US. Perversely, should the situation deteriorate, the silver lining may come in the form of rate cuts in the US and more stimulus in China. Already the Fed has signaled willingness to act pre-emptively and China has stepped up infrastructure financing.

With increased volatility ahead of June, we reduced the Fund's exposure in May. While we are cognizant of potential relief rallies, we have chosen to protect profits and remain defensive until a clearer path to mitigate economic slowdown emerges. At the stock level, we take a barbell approach, favoring companies that have low earnings cyclicality and/or face limited competition, as well as companies that are less predictable but have unique growth prospects.

## 基金經理人評論

5 月標誌著全球市場的轉折點。由於美國在最後談判階段，提高了對中國進口商品的關稅並禁止華為購買美國企業的零部件以及技術，因而中美貿易達成協議的希望變得渺茫。在即將到來的 G20 會議期間，習特的會面受到密切關注；但鑒於雙方的強硬言論和緊張局勢已經擴大到貿易之外，所以各方對會晤成果的預期較低。

兩國的實體經濟風險均有所增加。到目前為止，第二季度宏觀經濟數據表明中國工業生產增長放緩，以及美國就業情況低於預期。反過來說，如果局勢進一步惡化，可能會帶來美國降息和中國採取更多刺激措施的希望。美聯儲表示願意採取預防性的行動，中國也加大了基礎設施融資的力度。

預計 6 月 G20 會晤前的市場波動性仍會增加，我們在 5 月份減少了基金的倉位。雖然我們意識到市場潛在的反彈機會，但還是選擇保護利潤並保持防守，直到出現更明確的措施來阻止經濟進一步下滑。在股票層面，我們採取槓鈴策略 (barbell approach)，一邊選擇盈利週期性低、競爭對手少的公司；另一邊選擇盈利相對波動但具有獨特增長前景的公司。
